composite door collection

SOLIDCORE

elevate your home's style and security with our composite door collection

Unlock the future,
your new door is ready
to swing open...

For over 40 years we have been manufacturing
entrance doors for the home improvement market
and installation into the UK home.

Over this time our doors have evolved from early aluminium doors, into PVCu doors and then 44mm GRP composite doors. This has now evolved into our latest range of 48mm timber core composite doors, SOLIDCORE.

Our door is at the forefront of composite door design and its 48mm construction is almost 10% thicker than its 44mm foam filled predecessor. Comprising of two flat or embossed PVCu skin, finished with a coloured UV stable foil before laminating it onto our F-Pro+ timber core and encapsulating with our colour co-ordinating grained edge-band to provide a door that leads the market and comes complete with a comprehensive 10-year guarantee.

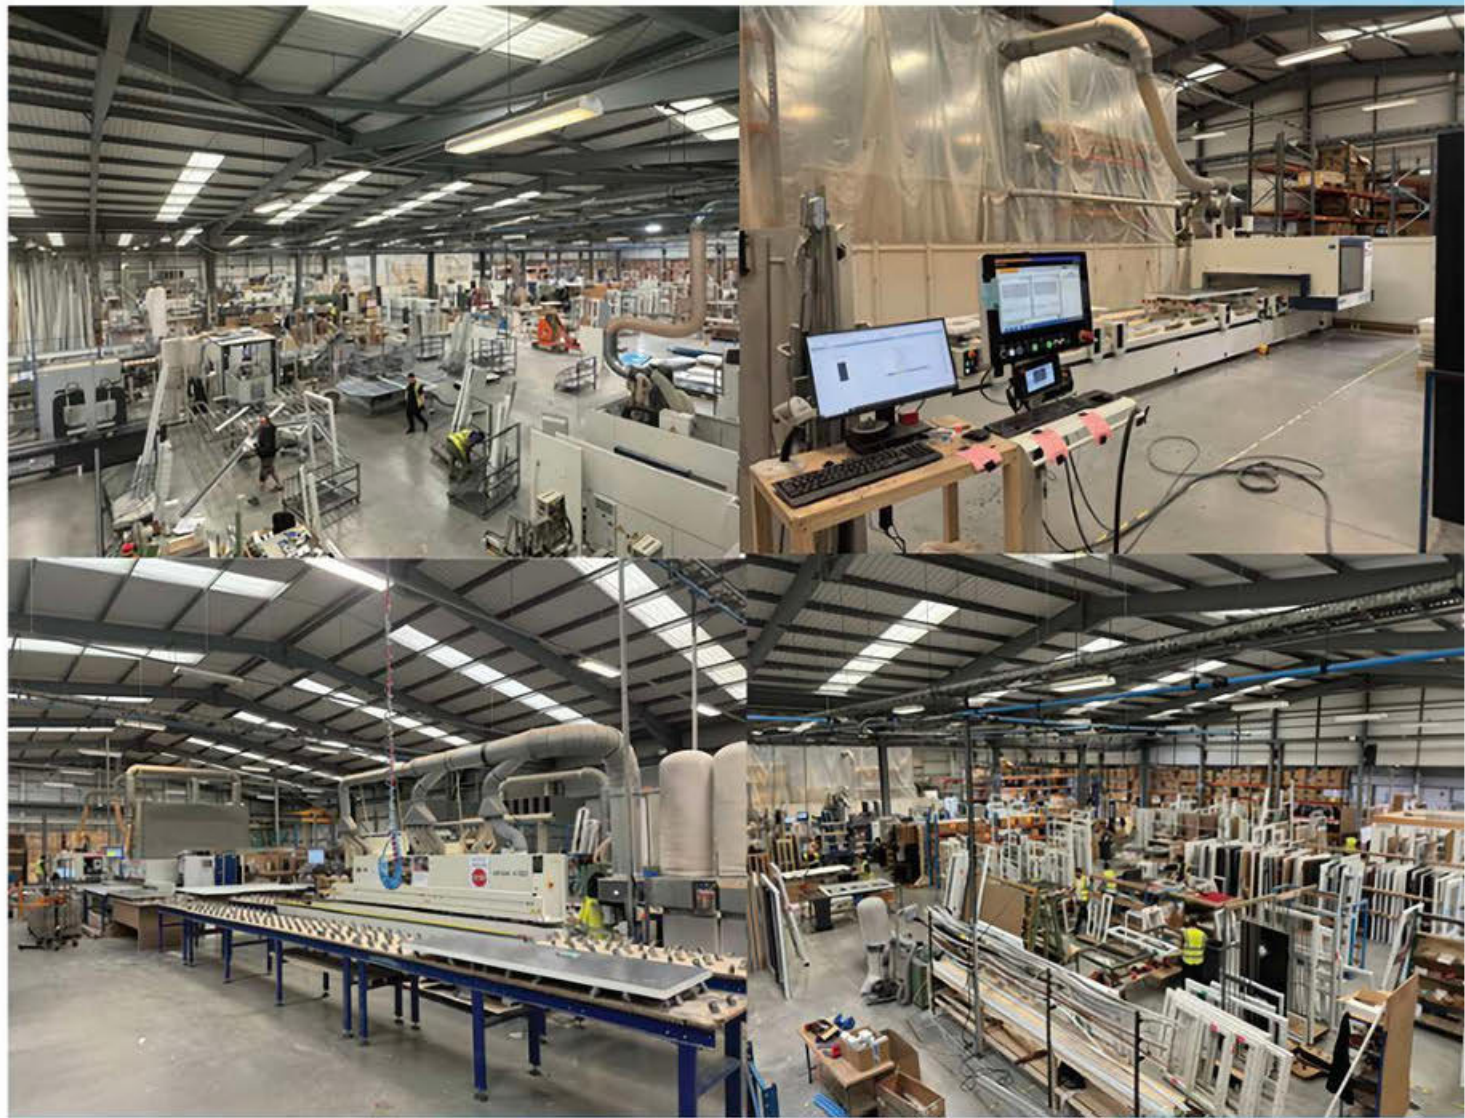

Solid British Quality and Manufacturing

All our Solidcore doors are manufactured here in the UK under strict BS EN ISO9001:2015 quality management systems.

They are then assembled into complete doors using a British PVCu frame in our state-of-the-art bespoke composite door factory to achieve BS EN 14351-1:2006 + A1:2010 to ensure our own high-quality standards are met.

DESIGNED
AND PRODUCED
IN THE UK.

10-Year Colour Fast Guarantee

Coloured Film Structure

Diagram showing the
structure of the exterior film

Our standard range of 17 door colours use a twin-layered exterior grade film laminated onto our PVCu door skins to supply a plain or printed woodgrain finish for a perfect colour match to the door frame.

The film incorporates a coloured pigment in the base layer which uses Solar Shield Technology to protect against excessive heat build-up which can result in thermal movement and door distortion. The transparent PMMA upper layer protects the colours and designs against fading caused by UV radiation or other weathering effects.

10-Year Structural Guarantee

The bespoke F-Pro+ timber core is only available in the SOLIDCORE range of doors and is unique in its construction.

By utilising 22 layers of cross laminated timber to create a framework around the multi-layered core provides structural stability, rigidity, and outstanding strength for maximum security.

Our British manufactured PVCu frame incorporates triple seal technology and is thermally reinforced to enable all our door sets to achieve the optimum U-value (a measure of heat transfer) of 1.2W/m²K and in combination of our F-Pro+ door slab ensures all our doors meet PAS24:2022, the requirement for door security.

With few additions our doors will also achieve Secured by Design, the Police Preferred Specification. Visit their website for more information. www.securedbydesign.com

Secured by Design

Police Preferred Specification

The 1.5mm thick PVCu skins used to surface our doors have a life expectancy of 20 – 25 years and can be recycled up to 6 times giving it a product life of over 100 years.

The timber core we use in the manufacture of our doors is also a naturally renewable resource and is only sourced from sustainable managed forests.

At the end of its useful life the door and its PVCu frame can both be recycled to minimise the waste of materials and ensure they do not end up in landfill.

Door Ranges & Finishes

Our doors offer a wide range of styles, finishes and glazing options to ensure we can provide the design that best suits your home.

The Traditional Range

This range features a moulded door design that incorporates a deep textured woodgrain effect embossed into the design.

The Contemporary Range

The styles in this range feature minimalist mouldings and an almost smooth finish to provide a modern appearance.

Contemporary Smooth Flat Skin Range

A smooth flat finish imprinted with grain effect to provide a stunning range of unique colours.

The Urban Range

This range is available in a tongue & groove design with the traditional deep textured woodgrain effect or as a flat skin that incorporates a lightly embossed grain effect to emulate the same texture as a foiled door outer-frame.

STANDARD COLOUR RANGE

10 YEAR COLOUR FAST GUARANTEE

Our standard range of door colours use a twin-layered exterior grade foil laminated onto our door skins to supply a plain or printed woodgrain finish. This foil incorporates a coloured pigment in the base layer which uses Solar Shield Technology to protect against excessive heat build-up. The transparent PMMA upper layer protects the colours and designs against fading caused by UV radiation or other weathering effects. Not only does this foiled finish ensure your door will keep its colour throughout its lifetime, but it will also be a perfect match for any like foiled door frame.

Contemporary Flat Skin (Flush) Range

Available in 4 Finishes

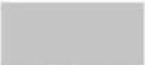

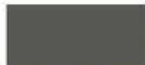

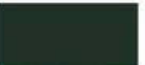

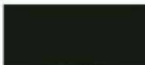

Colour that lasts...

“SPECIAL” RAL COLOURS

If you require a more bespoke appearance, we also offer an extended range of “Special” Ral coloured painted finishes created by our inhouse mixing station.

The Stable Door Range

STABLE DOORS

DOOR COLOUR OPTIONS

The Tuxford
Colour - Irish Oak
Glass - Victorian
Border

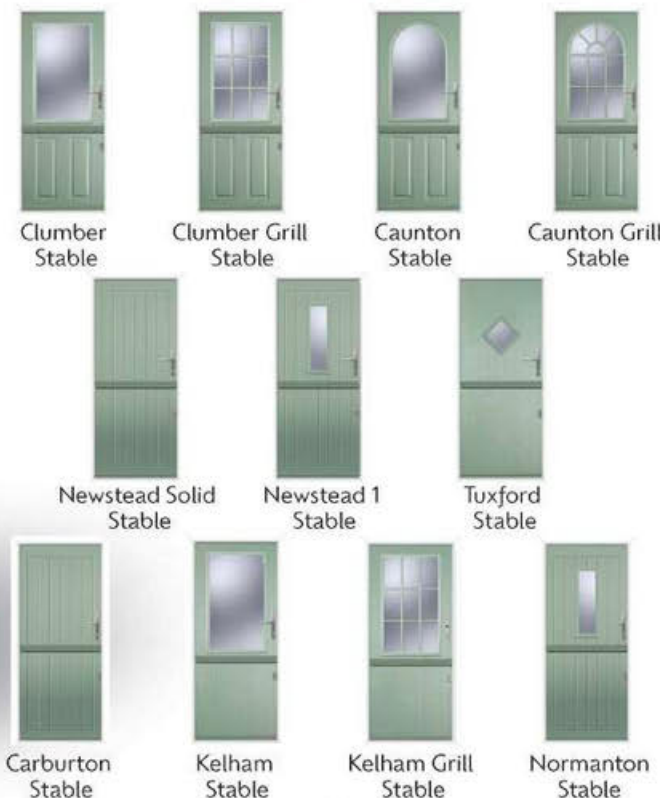

The Clumber Grill
Colour - Chartwell Green
Glass - Obscure

A bespoke range of doors split 40 / 60 to create a traditional look but when larger glass areas are required in the top half of the door this is changed to 60 / 40 split to accommodate the glazing area.

Each door is operated by 2 euro-cylinders and a multi-point door featuring 2 hooks, shoot-bolt, latch, and dead-bolt for maximum security.

The bottom euro-cylinder secures the bottom sash by engaging a hook into the door frame but on unlocking engages an Integral shoot-bolt into the top door sash and allows both sashes to open as one by the traditional operation of the level lever handle and euro-cylinder on the main door lock.

DESIGNS AVAILABLE

Refer to door designs for glass options

A photograph of a wooden French door with glass panels and decorative ironwork, set in a brick wall. The door is made of light-colored wood and features two glass panels with intricate ironwork designs. It has a black mail slot on the left panel and a black ring handle on the right panel. The door is set in a white frame within a brick wall. The floor is made of red square tiles. The text 'The French Doors Range' is overlaid on the right side of the image in a large, dark red font.

The French Doors Range

FRENCH DOORS

An outstanding range of double doors to that brings a new meaning to grand entrance.

DOOR COLOUR OPTIONS

Blue Contemporary Abbey Long Aurora Glass with Stainless Steel Bar Handles

Slate Grey Traditional Maple, Victorian Glass and Chrome Lever Lever Furniture

These bespoke designs and the Soildcore construction allow a wide range of styles and sizes that is only restricted by the moulded design and glazing options of the style chosen.

Available with traditional lever / lever operated locks or key operated with stylish bar handles.

Refer to door designs for glass options

HIGH SECURITY EURO-CYLINDER

The BSI 3 Star Kitemark, Sold Secure Diamond Standard Euro Cylinder offers maximum protection against all forced methods of attack ranging from snapping, drilling, plug-extraction, picking and bumping.

It's also engineered with a sacrificial point. When tampered with externally sets an interlocking cam mechanism into action and goes into lockdown mode.

ANTI-SNAP

PLUG EXTRACTION PROTECTION

ANTI-PICK

ANTI-BUMP

ANTI-DRILL

LOCKS & SECURITY

COMPLETE WITH 5 KEYS

Everyone of our doors comes complete with 5 keys and the 10-year warranty registration card as standard.

Follow the registration instructions to activate your warranty guarantee and order extra keys as required.

AI SECURE HOME OWNER GUARANTEE

**AI SECURE
GUARANTEE**

Our lock manufactures are so confident in their products and the strength of our composite doors they have combined their individual break-in guarantees. In the event of a burglar gaining entry to your home through failure of their products they will pay you, the homeowner

£5000

AUTO-FIRE MULTI POINT LOCK

Standard

Heritage

Standard Heritage

Key Position

Our doors feature high security Auto-Fire locking technology which removes the requirement of lifting the handle to engage the 20mm security deadbolts. This ensures our doors are easy to operate and only require the turning of the key or thumb-turn to lock the door and secure your home.

OPTIONAL THUMB TURN EURO-CYLINDER

For easy operation we also offer the option of an internal thumb-turn cylinder to replace the key.

The Thumb Turn ensures exit from your home can be done quickly in the event of a fire without the requirement to find a key. However, unlike other Thumb Turn cylinders which go into permanent lockdown mode after an attempted break-in. Our Thumb Turn features a push button to disable the lockdown mode and ensures a quick and safe exit from your home

Scan Me

AI Secure

AV4 AUTO LOCK

always precise

Faceplate	20mm Radius End
Backset	45mm

*Please note: For doors with a lever handle on the outer side, the hooks will engage but the door will not automatically lock. To lock the door, you will need to use the key to manually do this.

Scan me to see lock in operation.

This award-winning lock features Auto-Fire locking technology and removes the requirement to lift the handle as the high security hooks engage automatically as the door is closed and requires 40% less operational force when used as a key only operation than other door locks. It can be used with a standard lever / lever handle for traditional operation, or as a key only entry with a fixed external lever handle or a cylinder escutcheon and bar handle.

The lock is available with the cylinder in the standard central position but also offers the higher "Heritage" location associated with key only entry and offers the option of a unique day latch.

This unique day latch temporarily disengages the Auto-Fire feature and allows re-entry without the key when you are just popping out to your car or to talk to your neighbour.

Cylinders

ULTION 3* PLUS Euro-Cylinder

- 1 Steel hook
- 2 High performance gearbox

This euro-cylinder remains one of the strongest cylinders available, is packed with the latest in anti-break technology and comes complete with a £5000* guarantee. It is available with 3 or 6 keys and as the option of key / key or thumb turn. *guarantee require registration to activate.

www.ultion-lock.co.uk

With few additions our doors will also achieve Secured by Design, the Police Preferred Specification. Visit their website for more information.
www.securedbydesign.com

YALE 3 HOOK LOCKMASTER (PAS24)

This traditional lift lever / lever lock features 3 anti-separation hooks at the top, bottom, and centre of the lock plus an additional latch for maximum security.

It also features a dual follower (twin spindle) which allows the use of an external moveable pad (lever pad) handle which allows the operation of the hooks but restricts operation of the latch to key only to stop casual intruders.

Activate for free
www.ultion.co.uk

Tedee PRO

SAY GOODBYE TO TRADITIONAL KEYS.

Our smart lock system allows you to unlock your door with your smartphone or even set it to unlock and lock automatically when you approach by In-App features

KEYLESS ENTRY

The Tedee Pro offers seamless automated locking and unlocking and ensures your home is always secure whilst also allowing you total control by providing "Virtual Keys" that you can create and send via the app with precise access settings limiting when and how these keys will work. The Tedee Pro is available in black or silver/white and comes complete with 5 keys for manual operation.

The optional accessories of a wireless Keypad can also be used to unlock your door. The optional Bridge allows you to have total control from anywhere in the world by monitoring your door and alerting you to its operation.

Scan me to see lock in operation.

6
DIGIT
CODE

ULTION NUKI *PLUS*

The Ultion Nuki Plus is a combination of the Nuki keyless entry system, Ultion euro-cylinder and internal lever, paired with the external lever to give ease of operation.

Offering timed virtual keys and monitored through the app for total control on who and is available in black or silver/white and comes complete with 3 keys for manual operation.

The optional accessories of a handy fob, wireless keypad featuring fingerprint recognition ensures your access is guaranteed.

CUSTOM ETCH

Specifying your custom etched letters and numbers is as easy as 1.

Choose your Glazing Style

DECORATIVE GLASS OPTIONS

2.

Choose your Design Style

Our range of Custom Etch Letters and Numbers are available in a range of 8 standard styles and 5 typefaces, ranging from traditional to contemporary and make a striking statement whether they are used in the door glass itself, side or top light.

3.

Choose your Font Style

SIZING

As all custom number and names vary in length, font sizes will change dependant on the number of characters used. The general rule of thumb is that every 1 inch (25mm) of letter height provides 10ft (3metres) of readability with the best impact

Where possible we recommend number and lettering (except street names on sidelights) with a minimum of 150mm in height which will make them easily readable from 60ft (18metres) distance.

To calculate the size of lettering we use the following ratio as standard:
Width of glass (mm), minus 100mm, divided by the number of characters including spaces.
